In this newsletter, we will discuss what's been happening at MORC Creations during May including development progress and releases. We will also provide an updated calendar of releases for 2021.

2. What's Happening At MORC Creations in May?

The MORC Creations team has continued busily on from April into May, releasing 3 products; My Collections version 3, My Kitten version 1 and My Sticky Notes version 1.0.

Our icon developer Kathleen has created some create icons for both our My Puppy and My Kitten products and is now working on the generic icon set for the next new product, the more generic My Pet product.

May also saw the surprise release of another new MORC Creations product for 2021 - My Sticky Notes. Available for just $10(AUD) this product provides the ability to create and manage sticky notes directly onto your desktop. You can spawn new notes, save and load and note text, and set the note font style. You can even and nominate if an individual note is to stay on top at all times.

We are also working steadily towards the June release of both our new **My Notebook** product and version 3 of our **My Novel Writer** application.
